Human Monkeypox Virus Antigen (MPXV) Rapid Test Kit

Catalogue No.:abx092162

Human Monkeypox Virus Antigen (MPXV) Rapid Test Kit is a qualitative colloidal gold-based lateral flow immunochromatographic assay for the detection of Monkeypox Virus Antigen (MPXV) in Human serum, plasma, whole blood and lesion exudate samples.

Target: Monkeypox Virus Antigen (MPXV)

Reactivity: Human

Recommended dilutions: Optimal dilutions/concentrations should be determined by the end user.

Storage: Store at 4°C to 30°C upon receipt.

Validity: The validity for this kit is 12 months.

Detection Method: Immunochromatographic

Assay Data: Qualitative

Sample Type: Serum, plasma, whole blood or lesion exudate.

Note: This product is for research use only.

Please note that our kits are optimised for detection of native samples, rather than recombinant proteins. We are unable to guarantee detection of recombinant proteins, as they may have

different sequences or tertiary structures to the native protein.
