## ■ Novel Inhibitors / Agonists

Following closely the forefront of Drug Discovery, AbMole launches a series of **best-in-class** and **first-in-class** Inhibitors, Agonists, and Positive Compounds for Scientific Research.

| Product Name  | Target         | Cat.No |
|---------------|----------------|--------|
| ARV-110       | AR             | M10306 |
| Linerixibat   | ASBT           | M10322 |
| Mavacamten    | Cardiac Myosin | M10262 |
| Avacopan      | C5aR           | M9199  |
| SR-4835       | CDK12/CDK13    | M10258 |
| Trilaciclib   | CDK4/6         | M10033 |
| Elexacaftor   | CFTR           | M10162 |
| Rimegepant    | CGRPR          | M9165  |
| Vazegepant    | CGRPR          | M10372 |
| Mobocertinib  | EGFR/HER2      | M9535  |
| Amcenestrant  | ER             | M10254 |
| MS1943        | EZH2           | M9901  |
| Iptacopan     | Factor B       | M10317 |
| Danicopan     | Factor D       | M10145 |
| Pemigatinib   | FGFR           | M9596  |
| Zuranolone    | GABAAR         | M10326 |
| Danuglipron   | GLP-1R         | M10311 |
| Degarelix     | GnRHR          | M10250 |
| Relugolix     | LH-RHR         | M9197  |
| Irbinitinib   | HER2           | M10038 |
| Daprodustat   | HIF-PH         | M8924  |
| DT2216        | BCL-XL         | M10423 |
| Difelikefalin | KOR            | M10432 |
| Lasmiditan    | 5-HT1F         | M10160 |
| Idalopirdine  | 5-HT6R         | M9025  |

| Product Name       | Target             | Cat.No |
|--------------------|--------------------|--------|
| Dapansutrile       | NLRP3              | M9376  |
| Vorasidenib        | IDH                | M10308 |
| Ivosidenib         | IDH                | M8958  |
| Baloxavir marboxil | Influenza          | M10163 |
| Cabotegravir       | Integrase          | M10371 |
| Ralinepag          | IPR                | M10253 |
| Ripretinib         | KIT/PDGFR $\alpha$ | M9903  |
| Sotorasib          | KRAS G12C          | M9356  |
| CB-103             | Notch              | M10373 |
| Omaveloxolone      | Nrf2               | M10081 |
| AZD5305            | PARP               | M10298 |
| AMG 232            | p53-MDM2           | M10374 |
| Leniolisib         | PI3K $\delta$      | M10186 |
| Selpercatinib      | RET                | M9900  |
| Pralsetinib        | RET                | M9346  |
| CM-272             | G9a/DNMTs          | M9442  |
| Molnupiravir       | RNA replication    | M9605  |
| Etrasimod          | S1P1R              | M10226 |
| Vericiguat         | sGC                | M10118 |
| RG7916             | SMN2               | M9924  |
| Opaganib           | SphK2              | M9383  |
| Selitrectinib      | TRK                | M9107  |
| AC1903             | TRPC5              | M10318 |
| Brepocitinib       | TYK2/JAK1          | M9853  |
| NVS-ZP7-4          | ZIP7               | M10088 |

## Popular Inhibitors/Agonists

After 11 years of development, AbMole Science has more than 10000 inhibitors, agonists, ADCs and Protacs with high purity, high activity, and high cited.

| Product Name          | Cat.No |
|-----------------------|--------|
| AZD2281(Olaparib)     | M1664  |
| Chloroquine           | M9559  |
| Cisplatin             | M2223  |
| Cycloheximide         | M4879  |
| Cyclosporine A        | M1831  |
| Dexamethasone         | M2176  |
| Osimertinib           | M2424  |
| Erastin               | M2679  |
| Ferostatin-1          | M2698  |
| Heparin sodium        | M5688  |
| LY294002              | M1925  |
| 3-Methyladenine(3-MA) | M2296  |
| MCC950                | M6164  |
| Metformin HCl         | M2049  |
| Mertansine            | M5222  |
| Methotrexate          | M2228  |
| MG132                 | M1902  |
| TAK-242 (Resatorvid)  | M4838  |
| AICAR                 | M4897  |

| Product Name                         | Cat.No |
|--------------------------------------|--------|
| MK-2206 2HCl                         | M1837  |
| Nocodazole                           | M3194  |
| PDTC                                 | M4005  |
| Phorbol 12-myristate 13-acetate(PMA) | M4647  |
| ABT-199 (Venetoclax)                 | M2017  |
| Rapamycin                            | M1768  |
| FTY720 HCl                           | M1712  |
| RepSox                               | M1859  |
| RSL3                                 | M9060  |
| SB203580                             | M1781  |
| SN-38                                | M3016  |
| Sorafenib                            | M3026  |
| SP600125                             | M2076  |
| Streptozotocin                       | M2082  |
| Tamoxifen                            | M7353  |
| U0126-EtOH                           | M1977  |
| XAV939                               | M1796  |
| Z-VAD-FMK                            | M3143  |
| Z-IETD-FMK                           | M3136  |

## Humanized mAb

Abmole offers Humanized monoclonal antibodies with high activity, high purity, and low endotoxin content.

| Product Name                   | Target                  | Cat.No |
|--------------------------------|-------------------------|--------|
| Adalimumab                     | TNF-alpha               | M6222  |
| Avelumab(MSB0010718C)          | PD-1/PD-L1              | M3813  |
| Bevacizumab                    | VEGFR/PDGFR             | M6166  |
| Cetuximab                      | EGFR/HER2               | M6103  |
| Ipilimumab(MDX-010、BMS-734016) | Checkpoint              | M6104  |
| Nivolumab(BMS-936558、ONO-4538) | PD-1/PD-L1              | M6100  |
| Pembrolizumab                  | PD-1/PD-L1              | M6102  |
| Pertuzumab                     | EGFR/HER2               | M6221  |
| Ranibizumab                    | VEGFR/PDGFR             | M9236  |
| Rituximab                      | Immunology/Inflammation | M6219  |
| Tocilizumab                    | Immunology/Inflammation | M6223  |
| Trastuzumab                    | EGFR/HER2               | M6218  |

## Organoid culture

AbMole offers a variety of products that are used in organoid culture and drug susceptibility screening experiments.

| Product Name              | Cat.No |
|---------------------------|--------|
| A 83-01                   | M5037  |
| CHIR-99021 HCl            | M1989  |
| DAPT                      | M1746  |
| Dorsomorphin (Compound C) | M2238  |
| Forskolin                 | M2191  |
| Gastrin-I                 | M9320  |
| Ipatasertib (GDC-0068)    | M1862  |
| MK-2206                   | M1837  |

| Product Name             | Cat.No |
|--------------------------|--------|
| N-Acetylcysteine (NAC)   | M5385  |
| Nicotinamide             | M4896  |
| Prostaglandin E2         | M5929  |
| Retinoic acid            | M5927  |
| SB 202190                | M2062  |
| SB 431542                | M1794  |
| Smoothened Agonist (SAG) | M4865  |
| Y-27632                  | M1817  |

## Peptides

Abmole offers hundreds of bioactive peptides that can be used in biopharmacological research, including antibacterial peptides, neuroactive peptides, immunoactive peptides and kinases peptides.

| Product Name         | Cat.No |
|----------------------|--------|
| A-779                | M9091  |
| ACE-031              | M10203 |
| AMY-101              | M10084 |
| Angiotensin II human | M6240  |
| Angiotensin-(1-7)    | M9079  |
| BQ-123               | M9554  |
| Ceruletide           | M9316  |
| Cilengitide          | M2042  |
| Cotadutide           | M9749  |
| DAMGO                | M9615  |
| Desmopressin         | M9862  |
| Elamipretide         | M9137  |
| Endothelin-1         | M9555  |
| Exenatide            | M10034 |
| Gap 27               | M4967  |
| Gastrin-I            | M9320  |
| Glucagon             | M9312  |
| Lanreotide           | M10248 |

| Product Name       | Cat.No |
|--------------------|--------|
| Leuprolide         | M5735  |
| Linaclotide        | M7526  |
| LL-37              | M9955  |
| Nesiritide         | M10247 |
| Orexin A           | M9573  |
| OXA(17-33)         | M9943  |
| Pam3CSK4           | M9204  |
| PBP10              | M9845  |
| Plecanatide        | M10103 |
| Semaglutide        | M10035 |
| Somatostatin       | M10281 |
| Teduglutide        | M10249 |
| Teriparatide       | M10330 |
| Thymosin $\beta$ 4 | M10091 |
| Tirzepatide        | M9487  |
| TRV120027          | M10146 |
| Leptin (116-130)   | M9567  |
| Vasopressin        | M10312 |

## Solvent

A variety of solvents commonly used in animal experiments to facilitate the dissolution of chemical compounds in vivo.

| Product Name               | Cat.No |
|----------------------------|--------|
| Captisol(SBE- $\beta$ -CD) | M4837  |
| CMC-Na                     | M9317  |

| Product Name | Cat.No |
|--------------|--------|
| DMSO         | M3850  |
| HEPES        | M6793  |

## Natural Products

A variety of natural products from animals and plants with high purity and high activity.

| Product Name        | Target                  | Cat.No |
|---------------------|-------------------------|--------|
| Atranorin           | Endogenous Metabolite   | M10376 |
| Berberine           | Wnt/beta-catenin        | M9168  |
| (+)-Bicuculline     | GABA Receptor           | M2347  |
| Camptothecin        | Topoisomerase           | M2199  |
| Celastrol           | HSP                     | M3884  |
| Ceruletide          | Others                  | M9316  |
| Cinobufagin         | JNK                     | M4340  |
| Colchicine          | Microtubule             | M3460  |
| Concanamycin A      | Anti-infection          | M7737  |
| Crotaline           | Others                  | M4282  |
| Diosgenin-glucoside | Immunology/Inflammation | M4704  |
| Diphyllin           | HIV Protease            | M10325 |
| Yamogenin           | Liver X Receptor        | M10138 |

| Product Name           | Target             | Cat.No |
|------------------------|--------------------|--------|
| Forskolin              | Others             | M2191  |
| Ginkgolic Acid         | E1/E2/E3 Enzyme    | M6750  |
| Ginsenoside-F2         | Others             | M4084  |
| 10-Hydroxycamptothecin | Topoisomerase      | M7507  |
| Isorhamnetin           | Others             | M3999  |
| Licochalcone-B         | Others             | M4009  |
| Narciclasine           | Others             | M7016  |
| Norisoboldine          | Adenosine Receptor | M4497  |
| Piceatannol            | Syk                | M2941  |
| Pseudolaric-Acid-B     | Anti-infection     | M4723  |
| Retrorsine             | Alkaloid           | M10008 |
| Usaramine              | Anti-infection     | M4283  |
| Wedelolactone          | Others             | M4574  |

## Antibiotic

A variety of Antibody-drug Conjugate (ADC) Related ADC Cytotoxins, ADC Linkers and Drug-Linker Conjugates for ADCs.

| Product Name        | Target            | Cat.No |
|---------------------|-------------------|--------|
| G-418 disulfate     | Anti-infection    | M2719  |
| Puromycin 2HCl      | DNA/RNA Synthesis | M3637  |
| Hygromycin B        | Anti-infection    | M2761  |
| Actinomycin D       | DNA/RNA Synthesis | M4881  |
| Staurosporine(STS)  | PKC               | M2066  |
| Trichostatin A(TSA) | HDAC              | M1753  |
| Vancomycin HCl      | Anti-infection    | M4862  |
| Bleomycin sulfate   | DNA/RNA Synthesis | M2100  |
| Daunorubicin HCl    | DNA/RNA Synthesis | M2327  |

| Product Name           | Target            | Cat.No |
|------------------------|-------------------|--------|
| Ionomycin calcium salt | Calcium Channel   | M3807  |
| Brefeldin A            | ATPase            | M2294  |
| Kanamycin sulfate      | Anti-infection    | M6229  |
| Mitomycin C            | DNA/RNA Synthesis | M5791  |
| Neomycin sulfate       | Anti-infection    | M3594  |
| Wortmannin             | PI3K              | M2053  |
| Doxorubicin HCl        | Topoisomerase     | M1969  |
| Daptomycin             | Anti-infection    | M1938  |

## Cytokines

A variety of high activity, high purity, low endotoxin GMP-grade eukaryotic recombinant growth factors from 10 µg to mg scale for cell culture. Product advantages: no animal viruses, no pathogenic substances, no exogenous factor contamination, high safety, stable mass production with small batch-to-batch variation.

| Product Name    | Cat.No |
|-----------------|--------|
| Human EGF       | M9415  |
| Human EPO       | M9241  |
| Human GM-CSF    | M9344  |
| Human IFN-α2b   | M10011 |
| Human IFNγ      | M9240  |
| Human IGF-1 LR3 | M9994  |
| Human IL-12     | M9366  |
| Human IL-13     | M9982  |

| Product Name       | Cat.No |
|--------------------|--------|
| Human IL-2         | M9362  |
| Human IL-6         | M9364  |
| Human Oncostatin M | M9827  |
| Human PDGF-AA      | M9987  |
| Human PDGF-BB      | M9402  |
| Human TGF-β1       | M9391  |
| Murine Midkine     | M10286 |
| Rat IFN-γ          | M10297 |

## PROTAC

A variety of PROTACs (Proteolysis Targeting Chimeric Molecules) related products.

| Product Name       | Cat.No |
|--------------------|--------|
| ARV-110            | M10306 |
| A1874              | M9396  |
| Ac4GalNAz          | M10067 |
| ARV-771            | M9105  |
| ARV-825            | M6206  |
| BSJ-03-123         | M10379 |
| dBET1              | M9237  |
